

# Raptor Researcher Patch Workshop

Let the Raptor Institute guide your girl scouts through the process of earning a unique Raptor Researcher patch. Scouts will learn about the different raptor species found throughout San Diego County, while meeting these raptors up close and personal. This fun, interactive, 60 minute presentation will focus on identifying local raptors, learning about their biology, adaptations, and importance of conservation. Scouts will learn what they can do to appreciate and protect the habitats that these amazing birds call home. They will leave with a new respect for local wildlife and their very own Raptor Researcher patch.

**Age Level:** Brownie and Daisy Level Scouts

**Date/Time:** Saturday, February 10th, 11:00-12:00 pm

**Location:** Girls Scouts San Diego, Baker & Baum Room, 1231 Upas St, San Diego, CA 92103

## OUR MISSION

The Raptor Institute's mission is to inspire the San Diego community to conserve and protect birds of prey in their natural environment through comprehensive, educational programming.
